# SmartMedia

Document Camera and Visual Presenter

High-quality
digitalization

Mod. SMC20

Handy and portable, A4 documents

The document camera or visual presenter SmartMedia is a new and powerful technological tool that allows, in real time, the digitalization of the camera framed objects

The captured images can be saved in image files or popular video formats and can be stored, depending on the model, directly to your computer or SD Card.

The powerful software supplied allows you to make notes, highlight, delete, or make special focus, increase the brightness of the image, save the document etc …

The presence of a flexible rotating arm and a backlit base allows the viewing of particular objects is not easily accessible and visible.

Ideal tool for presentations and for teachers who wish to enrich their lessons by making them more interactive, involving and interesting.

It is used in the classroom, in relation to the digital whiteboard, allows the simultaneous visualization of all the students of the documents and the scanned objects.
